

Lil' Sneakers University

We care as much as you do

Lil' Sneakers University was established to provide an early learning experience for children 6 weeks to 13 years of age. We are here to treat your child with love and respect in a clean, safe environment. Lil' Sneakers wants to be the cornerstone in the foundation of your child's life by providing a positive influence and teaching him/her the skills he/she will need throughout life's journey. We achieve these goals by hiring caring and loving professionals.

Our staff recognizes the importance of balanced growth so they provide opportunities for mental, physical and emotional growth through a variety of creative experiences. Children are encouraged to learn and explore at their own speed in areas that interest them. We look forward to being included in the growth and development of your child.

Our approach is active learning

At Lil' Sneakers University we believe in a hands on approach to learning. Children learn by experience and by doing instead of just watching and listening. Also, the process is emphasized more than the product. It's the how not the what. Creativity is the key to success. The experience is important, not just the end result.
